HENRY SAMPAIO

DESIGNER AND DEVELOPER

Founder of FocusEven,
Born in Brasília, Brazil - 07/03/02.
Graduated in Systems Analysis and Development and professionally experienced as a Graphic Designer in multiple companies. I have been working with editing and programming programs since I was 11 years old, interested and curious in these areas and always planning to pursue knowledge.

📍 DF, Brasília, Guará II – 71060040

ACQUIRED GIFTS

Programming Languages and Technologies
• JavaScript, HTML5, CSS3: Dynamic and responsive front-end development.
• React, Node.js: Robust and scalable web applications.
• PHP 7: Efficient back-end development.
• SQL Server, PostgreSQL, MySQL: Database modeling and management.
• TypeScript: Static typing for greater robustness in code.

Tools and Libraries
• Webpack and NPM: Build and dependency management.
• Bootstrap and jQuery: Fast and responsive interfaces.
• Composer: PHP dependency management.
• CodeIgniter 3: Framework with good organizational practices.
• DataTable.js: Interactive and responsive tables.
• Highcharts.js: Dynamic and interactive charts.
• Axios: Easy and efficient HTTP communication.
• Tailwindcss: Fast and responsive styling.
• TypeScript: Static typing for greater robustness in code.
• Vite: Fast build tool for front-end projects.
• Figma: Translating requirements and ideas into simple design solutions.

Code Development and Organization
• Organization and Standardization: Clean code, MVC, detailed commits.
• Agile Methodologies: Experience with Scrum and Kanban.

Docker e Linux
• Docker: Configuring containers for various services.
• Linux: Basic commands and package installation.
• SSH: Using Secure Shell to access and manage servers.

APIs e Web Services
• REST API: Complete and secure implementation of APIs.
• Security: Prevention of SQL Injection and CSRF.

Professional skills
• Problem Solving and Learning: Problem solver and continuous learner.
• Browser Testing and Debugging: Familiarity with browser testing and debugging.
• Teamwork: Collaborates quickly with teammates, presenting ideas and solutions.
• Adaptability to Change: Flexibility to adjust to changes in project and/or scope.
• Initiative: Proactive in approaching tasks and challenges.
• Attention to Detail: Careful with all aspects of work.
• Organization: Maintains a structured and efficient work environment.
• Communication: Ability to communicate clearly and effectively.

Education
• Graduated in Systems Analysis and Development - 2 years
• IT Technical Course - 2 years
• Solid foundation in software development and IT practices.

Main Projects
• SUPRA - Supervisão Avançada: CodeIgniter 3, PHP, jQuery, Javascript, SQL Server...
• SIMA | DNIT: React.js, Typescript, Tailwindcss, Node.js, Vite, Axios, SQL Server
• SIM - Sistema Integrado de Monitoramento: CodeIgniter 3, PHP, Javascript, PostgreSQL
• HT - Holytech Projects: PHP, Javascript, jQuery, MySQL
